ANJALI DESHMUKH

Bhopal, India | 9098163924 | anjalideshmukh2541@gmail.com | GitHub | Portfolio | LinkedIn

PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in AI/DS with hands-on expertise in full-stack MERN development. Proficient in designing scalable RESTful architectures, implementing secure authentication mechanisms, and optimizing backend performance. Demonstrated ability to develop production-ready web applications with clean code principles, modular design patterns, and efficient database structuring. Strong analytical thinker with a problem-solving mindset and a commitment to continuous technical advancement.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), React.js, HTML5, CSS3, Tailwind CSS, EJS, responsive design

Backend: Node.js, Express.js, RESTful API Development, MVC Architecture, Authentication & Authorization (JWT), CRUD Operations, API Integration, error handling

Database: MongoDB, Mongoose, indexing, aggregation pipelines

Tools & Platforms: Git, GitHub, Postman, Render, Vercel, vs code

EXPERIENCE

MERN Stack Developer Intern | Sheryians Coding School, Bhopal | Dec 2026 – Feb 2026

- Contributed to backend development of a Recruitment SaaS platform serving real-world users.
- Engineered RESTful APIs to manage job postings, candidate applications, and user workflows.
- Architected MongoDB schemas to ensure structured data storage and optimized query performance.
- Implemented authentication workflows and enhanced API validation for improved application security.
- Collaborated using Git-based version control to maintain structured and traceable development cycles.

PROJECTS

Recruitment SaaS Platform https://hire.sheryians.com/login

- Designed backend modules for job lifecycle management and candidate tracking systems.
- Developed secure authentication and role-based access control mechanisms.
- Structured modular API routes to enhance scalability and maintainability.
- Implemented responsive frontend components to improve usability across devices.

Virtual AI Assistant

- Built a full-stack AI voice assistant with real-time speech input and output using Web Speech API.
- Integrated Gemini AI for intelligent, context-aware responses.
- Designed an interactive React-based UI ensuring intuitive user engagement.
- Structured backend communication layers to manage API requests efficiently.

EDUCATION

Sagar Institute of Research and Technology – Excellence | B. Tech (AI & DS) | 2023-2027 | CGPA-7.24
Govt. higher secondary school Paradsinga | Class X- 93% | Class XII -80.6%
